Only 8% of the World's Money is Cash

Most money today lives on computers, not in your wallet. With the rise in mobile banking and electronic payments, people are earning and spending money without ever touching it!

Economists estimate just 8% of the world's currency is physical cash, the rest existing digitally in bank accounts across the world.

Swipe, tap, click... and see how digital money is taking over!

Gone Phishing?

Don't take the bait:
protect yourself from
phishing scams.

Don't fall for phishing scams trying to reel in your personal info through emails, texts, or calls that look real.

Domino is here with a few tips to help you **recognize the red flags**.

TIPS TO SPOT & STOP PHISHING

Check the Source

Unexpected emails, texts, or calls claiming to be from banks, government agencies, or other services could be fake.

Don't take the Bait

Hover over links to see where they really go before clicking.

Keep Info Private

Never share sensitive information over the phone unless you initiated the call.

Verify First

When in doubt, contact the organization directly using a trusted number from their official website.
